About Me: Motivated and detail-oriented Software Engineering student with growing skills in Flutter. Also familiar with Java (OOP), C++, and front-end web development using HTML and CSS. Passionate about building user-friendly applications and continuously learning through real-world projects. Particularly interested in web development and eager to explore full-stack technologies to create responsive and interactive web applications.

Experience

- **Flutter Intern: June 2025 – July 2025**
DevelopersHub Corporation — Remote

Projects

1. **Final Year Project: AutoVisionHub (Present)**
An AI-based automotive marketplace and community platform with AR part visualization, AI chatbot, and marketplace features to connect enthusiasts and simplify vehicle trading.
2. **Budget Tracker App (Java OOP)**
Built a budget tracking app with a user-friendly GUI using Java OOP to manage income, expenses, and calculate remaining balance.
3. **EmotiCam (Python)**
A real-time application that uses webcam input to detect facial expressions and instantly generate corresponding emoticons, enhancing digital expression through interactive and engaging feedback.
4. **Eventify (HTML, CSS, JS)**
An online platform for booking elegant event decoration services, allowing users to explore themes, make bookings, and plan events conveniently.
5. **Blood Donation System**
A hybrid system using SQL (CMD-based) and MongoDB (GUI-based) to manage donors, recipients, inventory, transfusions, and notifications with secure admin controls.

Highlights/Skills

- **Soft Skills:**
 - Communication
 - Time Management
 - Problem Solving
 - Quick Learning
- **Technical skills:**
 - **Languages & Development:** Java (OOP), JavaScript (basic), HTML, CSS, Flutter, C++, Firebase
 - **Tools & IDEs:** VS Code, Android Studio, MS Office Suite, Google Workspace
 - **Documentation:** SRS, SDS, Test Plans, Project Proposal

Education

BS: Software Engineering (2022 – Present)
COMSATS University Islamabad

FSc: Pre-Engineering
Public School & College Skardu

Matric: Pre-Medical
Public School & College Skardu

Hobbies

- Reading novels – a great way to relax and improve imagination.
